Total Home Size: 286.79m²

The Flemming design is an ideal architectural solution for sloping blocks, offering a harmonious blend of practicality, aesthetics, and functional space. This design has been thoughtfully crafted to make the most of the unique characteristics of sloping terrain while providing a comfortable and spacious living environment for its occupants. The Flemming design is specifically tailored to make the most of sloping blocks. It takes advantage of the natural contours of the land to create a visually appealing and functional layout that seamlessly integrates with the surrounding environment.
